

## Problem Set 5

(Out Mon 10/03/2011, Due Tue 10/11/2011)

---

**Instructions**

---

Any problem given by a number (and page reference) is taken from the book  
Brian Bradie, *A Friendly Introduction to Numerical Analysis*, Pearson Prentice Hall, 2006.

- Problems marked with **(T)** are theory problems. Their solutions are to be submitted on paper.
- Problems marked with **(P)** are practical problems, and require the use of the computer. Their solutions are to be submitted on paper, and usually require two parts: (a) a description of the underlying theory; and (b) code segments, printouts of program outputs, plots, and whatever it required to convince the grader that you have understood the theory and addressed all practical challenges appropriately.

---

**Section 2.6** (pages 122–126)

---

**(T)** 2.      **(P)** 4.      **(P)** 7.      **(P)** 12.      **(T)** 13.      **(P)** 15.      **(T)** 16.
