

Sonja Kovalevskaya

Mathematics Day at UVa

Sonja Kovalevskaya

Sonja Kovalevskaya Mathematics Day is a program of workshops, talks, and problem-solving competitions for middle and high school girls and their teachers, both women and men. The purpose of this program is to encourage girls to continue their study of mathematics, to assist them with the sometimes difficult transition between middle and high school mathematics and between high school and college mathematics, to assist the teachers of these students, and to develop a more extensive cooperation between UVa and the middle schools and high schools in the area.

Middle school and high school girls from the Charlottesville area are encouraged to participate.

April 4, 2009, 10:00am - 3:30pm
Kerchof Hall Common Room (314)

Organizer: Irina Mitrea (im3p@virginia.edu)

Sponsored by the IMS and the Department of Mathematics at the University of Virginia
